

Minimalist Shopping App

Design layouts

- Home (Banner + Products)
- All Products
- Product Details
- Login

Project structure

1) API management

- `src/api/axios.js`
- `src/api/productApi.js`

2) components

- `src/components/Navbar.jsx` (Logo & User Icon)
- `src/components/ProductCard.jsx` (Image, Title, Price, Wishlist Icon)
- `src/components/Banner.jsx`
- `src/components/Footer.jsx`

3) Views & layouts

- `src/pages/Home.jsx` (Landing with Banner + Featured Products)
- `src/pages/AllProducts.jsx` (The Full Products)
- `src/pages/ProductDetails.jsx` (Single Product View)
- `src/pages/Login.jsx` (Centered Login Form)

4) configuration

- `src/App.js` (Routing & Layout)

- `src/App.css` (Global Styles & Design Variables)

API (DummyJSON)

- All Products: `https://dummyjson.com/products`
- Single Product: `https://dummyjson.com/products/{id}`
- User Login (POST): `https://dummyjson.com/auth/login`

Installation & setup

- Install required libraries:
 - `npm install axios react-router-dom`
